

THE START OF YOUR CAREER IN FLIGHT

ABOUT THE PROGRAMME

This unique two-week course in the U.K. will give an insight into what it is like to work within the aviation industry. Students will experience many aspects of the life of an airline professional, pilot or aircraft engineer. This will include flying lessons on light aircraft, Boeing 747 simulator, air law, aviation communication, aircraft maintenance and safety, equipment and procedures emergency training.

This is an excellent way to help young people to decide whether or not they would like a career in aviation and is a wonderful experience for the participants, who will gain flying experience, a broader outlook on life, a range of professional aviation training and will have a lot of fun during the two weeks.

Minimum age 14, other courses available for younger students, please contact for more information.

THE BRITISH AVIATION EXPERIENCE

SUMMER 2018

Safety Equipment & Procedures (SEP) Awareness Day

A visit to British Airways own crew training centre at Heathrow Airport for a day course to learn how air crew deal with emergencies. The course consists of a welcome session with instructors, unplanned and planned emergencies (the procedures, commands and practical exercises), safety demos, pilot incapacitation, principles of survival, fire ground and smoke chamber (each student will put out an oven fire, put on a smoke hood and also take part in an exercise in the smoke chamber), slide descent (using the Airbus 320 Slide), slide raft and a final Q&A session. Students will also receive a certificate for completing the training.

Simulator Day – Cardiff

Students will fly the famous Boeing 747-400 “Jumbo Jet” in an airline standard full motion flight simulator, with lessons from a qualified instructor. A perfect opportunity for would-be pilots to get a real feel for what it’s like to be a pilot on the Boeing 747. Students will fly 30 minutes as Pilot in Command (PIC), 30 minutes as co-pilot and one hour as an observer. There will be briefing and discussions with professional airline pilots and instructors.

Pilot Flight Training

(Includes 4 x 1-hour flight lessons, with options to purchase additional hours)

The flying school is fully approved to teach pilots for the European (EASA) Private Pilot Licence and Light Aircraft Pilot Licence. All ground school, pilot flight training and flight tests required are conducted by the flight school at the airfield by professional instructors and flight examiners dedicated to providing high-quality training. There will also be tours of aviation facilities, such as an air traffic control tower and helicopter maintenance facility.

The student will also receive items of uniform, aircraft checklist, PPL syllabus and a pilot’s logbook with all flights recorded.

Visit to British Airways HQ

A tour of British Airways Headquarters and Heritage Museum at London Heathrow, with a presentation by British Airways on “The Operations of an International Airline”.

Aviation Museum Tours

A visit to the new £19 million Aerospace Bristol to immerse in the history of aviation and see the last Concorde that ever flew. A tour of the London Science Museum, where students can discover the absorbing story of flight and examine exhibits from the pioneer days of aviation.

Aircraft Maintenance Facility

A rare opportunity to see how modern jet aircraft are repaired and maintained, with a visit to an aircraft maintenance facility. There will be a tour of the 12,000 sq metre aircraft hangar which will give students a good understanding of how jet aircraft fly and what needs to be done to keep them flying safely. Aircraft types being worked on include the Boeing 737, Boeing 757 and Airbus 320.

Aviation Lectures and Seminar

Lectures and talks with pilots, engineers and aviation professionals, giving students an insider view of the industry and what to expect. There will also be a cockpit self-defence seminar that teaches specialised martial arts training and techniques, allowing students to understand the importance of physical and mental training in aviation to develop confidence when dealing with emergency situations.

City Sightseeing

Students will be able to enjoy time in London to see the many famous sights such as Buckingham Palace, Tower of London, Houses of Parliament, St. Pauls Cathedral and the London Eye, to name but a few. A Tour of the capital City of Wales to discover the cultural and historical attractions such as Cardiff Castle, Millenium Centre and Principality Stadium.

*All programmes are subjected to change

Emirates Aviation Experience

A unique insight into the world of modern commercial aviation, using state-of-the-art technology, interactive displays and life-size aircraft models. A chance to experience the A380 and B777 flight simulators, utilising full landscape visuals, allowing participants to practice their take-off and landing skills at ten of the most popular destinations worldwide.

Team Building Activities

747 Counter Hijacking Combat Experience, a unique gaming environment by staging a counter ground hijacking scenario with 2 fully cosmetic and accessible Boeing 747 aircraft. The aircraft are surrounded by a helicopter, vehicles, buses, lorries and aircraft parts for plenty of cover.

Go Ape! is a day with full-on adventure to experience team work. Students get to tackle high rope obstacles, leap off Tarzan Swings, and glide down zip wires, all whilst enjoying the great outdoors.
